A good number of professional colleges are situated in rural areas in the State. Substantial numbers of seats were found vacant in such colleges in the previous years due to non availability of qualified Teaching staff though the infrastructure is built and made available as per the norms of AICTE.

Prof. Dayaratnam Committee made the following recommendations:

- It is recommended that certain weightage be given to the qualifying examination marks of the appropriate subjects for admission into the professional courses along with a weightage to the common entrance test; and in course of time may be in the next five years the marks of the qualifying exam could be considered as sole criterion for admission into all professional courses.
- It is recommended that a better mechanism be developed in the organization of the practical classes and the examinations for credible results. Students should be jumbled for practical examinations. The practical examination marks in the appropriate subjects be included in the weightage consideration in the admission to professional courses.
- Normalization of the marks across the courses or a suitable mechanism is to be incorporated in the weightage.
- It is recommended that the common entrance test be continued with a weightage for the marks of the test in the admission process to the professional courses.

- It is recommended that a weightage of 50% of the marks at the qualifying examination be given starting with the students to be admitted into the 1<sup>st</sup> year Intermediate.

**Necessity to continue common Entrance Test of Admission (EAMCET)**

- Candidates who acquired a pass in the prescribed qualifying examination for a Test from different Examining Boards/ (CBSE, ICSE, SLC etc.) within the State will appear for the Common Entrance Tests conducted by the state who desire admission into professional courses. Therefore normalization of their performance in the examinations is inevitable to arrive at the merit order of the candidates. It is done by conducting a common entrance test for all such candidates to accord relative merit ranking.
- Further, the apex court (Supreme Court ) in P.A. Inamdar case has held that Common Entrance Test is necessary in fulfilling twin objects of transparency and merit and admission to professional colleges should be based on merit by a common entrance test conducted by the Government agencies.
- The Government issued orders in G.O.Ms.No.165 Higher Education (EC.2) Dept. Dt:06.09.2007 that admissions into the Engineering, Pharmacy, Agriculture, Medical and Dental courses shall be on the basis of combined scores obtained by giving 25% weightage to marks secured in the Intermediate Examination and 75% to EAMCET / EAMCET-AC from the year 2009 onwards.

In view of the above there is no proposal before the Government to abolish the EAMCET entrance test.
